Panning machine

- Uses: for drying food such as tea leaves, tobacco, laver, peanuts, sesame, flour, wheat germ and Chinese herbal medicine, etc.
 - Each switch is set up independently. The switches for roller, gas, ignition, windmill, etc are installed on the same panel for the convenience of operation.
 - The device for air inlet and outlet is installed for discharge moisture.
 - Temperature range: room temperature ~ +350°C
 - Heating method: by gas
 - Heat isolation: the exterior roller is layered with imported high-density fiber glass to keep internal heat so as to save energy.
 - The exterior material of roller is SUS304 stainless steel
 - The interior material of roller is SUS304 stainless steel or SS41 steel
 - Various specifications are available based on working sites.
- Remark: automatic thermo control unit and automatic pouring unit are optional

Specifications:

	SP-10	SP-20	SP-30	SP-40
